1. Сопоставить буквы с цифрами.

a - 9, b - 6, c - 7, d - 2, e - 10, f - 5, g - 4, h - 1, i - 8, j - 3.

2. Письменно составить диалог по вопросам.

- Hello, do you study in college?
- Yes, I do.
- Could we ask you any questions about your study?
- Okay.
- What subject are you good at?
- This is difficult question, but my favorite subject is English, because I want to live abroad in the future.
- What do you study? What's your main subject?
- Now, we are studying lot of subjects, but main is informatics, because we will be computer specialist in the future.
- Cool, but what made you decide to go to this college?
- I think, in this college I find many new friends and I will become a good specialist in computer science, because I love this subject very much.
- Which is harder: to study in college or in school?
- In school. Certainly. I think, teachers make you learn what you are not interested in and do not need. Also in college you have teachers, who interested in my endeavors and prospects.
- What advice would you give a secondary-school pupil who is about to go to college?
- I'd advise him to never give up and prepare for a new life. And I'd like to wish him/her luck.
- Does education guarantee a god job?
- I find it difficult to answer this question, it all depends on the case.
- Thank you for answers!
- No problems.
